2013 NATIONAL TAN SHOW – KING/QUEEN

True or False: Circle T for True and F for False

- T F 1. Tan pea spots are the forward extension of the triangle color.
- T F 2. Tans are judged in alphabetical order (i.e. black, blue, chocolate and lilac).
- T F 3. Body Type is worth the most points when judging a Tan.
- T F 4. Excessive brindling is permissible on juniors.
- T F 5. The Tan Triangle award may be presented annually a nominated Tan fancier who has done the most to promote the ATRSC and Tans that calendar year.
- T F 6. You should outcross only when your breeding program has failed to produce traits you desire.
- T F 7. Junior Tans may be shown in a higher age classification.
- T F 8. The chest marking should be rounded in shape.
- T F 9. Brindling refers to the longer tan-tipped guard hairs carried well up the sides.
- T F 10. Tans may have a small dewlap.
- T F 11. Blacks are the most commonly shown variety of Tan.
- T F 12. The ATRSC is affiliated with the American Rabbit Breeders Association.
- T F 13. Stress is a frequent cause of infertility.
- T F 14. Domestic Rabbits is the official publication of the American Tan Rabbit Specialty Club.
- T F 15. Tans sometimes produce solid colored sports.
- T F 16. The minimum weight on a junior is 3lb.
- T F 17. Evenness is more important than intensity of tan factor.
- T F 18. The first Tan guidebook was published in 1977.
- T F 19. The Gabby Croteau award is awarded annually to the person from each district that earns the highest number of sweepstakes points.
- T F 20. Clean water and fresh feed is very important to conditioning.
- T F 21. Bucks that are not being used for breeding may be infertile on their first mating.

- T F 22. Linebreeding and inbreeding result in consistency in show stock.
- T F 23. One of the common type faults is animals that are too long in body.
- T F 24. Does may have more difficulty producing in the winter and this is not unique to Tans.
- T F 25. According to the ATRSC Constitution, all members in good standing may vote in elections.
- T F 26. The chest marking will begin to widen after 14 weeks of age.
- T F 27. The ATRSC member who recruits the most members each year will receive one-year free membership.
- T F 28. Fur structure is to be medium-fine.
- T F 29. Tans that are long in body will have adequate depth.
- T F 30. The lower front part of the front feet and legs should be the same color as the body color and free from brindling.
