2012 NATIONAL TAN SHOW – LORD/LADY TEST

True or False: Circle T for True and F for False

- T F 1. Tans came in four varieties (colors): black, blue, chocolate and lilac.
- T F 2. Senior Tans have a minimum weight of 4lbs.
- T F 3. Feed can be increased in the winter months to allow for the Tan's need to produce more body heat.
- T F 4. A Tan has its own type, different from any other breed.
- T F 5. The American Tan Rabbit Specialty Club is the national Tan breed specialty club.
- T F 6. Tans should be pushed down or flattened while being judged.
- T F 7. Black is the dilute of chocolate.
- T F 8. The eye circles should circle the eye and show an even tan color.
- T F 9. Condition is important because it affects color, markings and fur.
- T F 10. Tans may have white spots in their fur.
- T F 11. The original color of the Tan rabbit was black.
- T F 12. Lilacs are the most common variety (color).
- T F 13. Does are easiest to breed in the winter months.
- T F 14. Tans should be disqualified for white toenails.
- T F 15. Color is worth the most points when judging a Tan.
- T F 16. Tans are judged by being allowed to move naturally on the show table.
- T F 17. Tans should be evaluated in natural light if possible.
- T F 18. Overweight Tans may have trouble breeding.
- T F 19. Tans have a "snappy flyback" coat.
- T F 20. Tan fur has a lot of gloss and luster.
